American Board Program Checklist

Below is a detailed checklist for the American Board Online Teacher Certification program. It is intended as a guide based on the experiences and best practices of American Board alumni that can keep you on track with your exam preparation goals.

This program checklist is spread across about 11 months and assumes 3-4 hour blocks of preparation, at least two times per week. It also suggests that you begin preparing for the Professional Teaching Knowledge (PTK) exam first. Use this as a template that you can adjust to meet your own needs, time frame, and study schedule.

We recommend that you use this checklist as your syllabus, adjust it for your needs, and consult it regularly to keep you on track to a classroom of your own! Most of the resources mentioned in the checklist can be found on through your account page. If you need any help with your Program Checklist, sign in to your program Dashboard and create a Helpdesk Ticket to reach our Service Team.
